

OUR ECO-CODE

In Bushmills Primary, we love the sea,
Beach Schools is the best place to be.

We like to hear about the fish,
Stopping pollution is our wish.

We've cleaned the beach, we've collected shells,
We like to watch the sea swell.

Our posters give facts about marine life,
Preserving their habitats, we want no strife.

In Bushmills Primary, we are cool,

We don't take our cars to school.

We love to take the walking bus,

Reducing our carbon footprint is a must.

We turn off the lights when we leave the room,

Saving energy to make the world bloom.

Our Plastic Promise we plan to keep,

Recycling and reducing waste is no mean feat.

Outdoor Learning is so much fun,

Forest Club is where we can get it all done.

You can help if you're big or small

Potato, Tomato we plant them all.

We've planted hedges, we've planted seeds,

We've worked together so we can succeed.

We love to learn with the Eco crew,

We're BPS and we're here for you!
